Grow Hope Update

Issue 4 2017

## Grow Hope Markdale

### The Harvest is In!

by Elaine Bumstead (*Executive Director of NCM Canada*)

The Grow Hope Markdale field of spring wheat has been harvested.

*Farmer Doug Thompson driving the John Deere combine, harvesting the 25 acres of spring wheat.*

The 25 acre field was fully sponsored. An additional 18 acres was made available by the Goudy family. By the end of the harvest celebration weekend, those 18 acres were also fully sponsored. See page 2 for the financial report for 2017.

The Goudy family is making the 25 acres available again for sponsorship in the spring (2018).

Stay tuned for a Grow Hope update in March 2018.
