Grow Hope Update

Issue 3 2021

\$27,864.71 sent to Canadian Foodgrains Bank

Field being harvested 2021

Thank you to local farmers, Wayne and Sharon Goudy, Michael and Christie Goudy, Pondbank Farms, and Torry farms for their generous contribution of land, labour, and machinery. Thank you to all who sponsored acres and who gave additional donations. Your support made this all possible.

In 2021 50 acres were contributed and the total raised by the Grow Hope Markdale Growing Project was \$47,864.71. After paying for the farmers' input costs (\$400 per acre x 50 acres) the net income was \$27,864.71 which was sent to Canadian Foodgrains Bank.

Grow Hope Projects support

Help us end global hunger.

Thank you from Kenya!

This picture of a little girl from Kenya was captured in a video taken of her saying thank you to those who gave. She said "The porridge is very good. I am very happy! My family received beans, corn, porridge and cooking oil. I am so happy now I have food in my home. Thank you so very much!"

1000 families in the Turkana Province of northern Kenya received the food ration for five months, up until harvest. Along with the usual ration of 50 kg of corn, 10 kg of beans and 5 kg of oil there was also distributed a nutritional supplement (made into porridge) for young children and pregnant and nursing mothers.

This little boy received a food ration for himself and his siblings. He is one of the child-headed households in this area of Kenya who received food. In their selection of beneficiaries, Nazarene Compassionate Ministries Kenya deliberately targeted the most vulnerable - households caring for orphaned children less than 18 years old (where both parents have died), child-headed households (orphan-headed households or where the parent or grandparent is incapable of undertaking the usual head of household roles), elderly-headed households (more than 60 years old), families with chronically ill/HIV and AIDS affected members, female-headed households and households with children receiving supplementary or therapeutic feeding. Without this food, many of these would have perished.

The global pandemic continues to wreck havoc in countries in Africa, the Middle East and South Asia. The people who are very poor and living hand-to-mouth on a day-to-day basis, are hardest hit.

You can continue to support the good work of Canadian Foodgrains Bank and Nazarene Compassionate Ministries Canada by sponsoring an acre in the Grow Hope Markdale Growing Project in 2022.

This year's crop will be soybeans.

Thank you for giving to Grow Hope Markdale

You are making a difference!
